

Does your Family Know What to Do?

We are prepared for an emergency.
We want your family to be too.

- Local emergency contact information
- What to include in an emergency kit for your home and car
- What to do with your pets if you must evacuate your home
- Ideas for working parents, those taking care of someone elderly or who has a medical condition

The Livingston County
Department of Public Health's
Emergency Preparedness Guide
is available online at
www.lchd.org

Check it out for you and your family.
